39. LOGNOTE - Executive and Planning Staff, 19 March 1980

[ ] FUNDING OF MUSLIM WORLD ACTIVITIES. Queried [ ] yet again on question of when we might expect the funds for our supplemental Muslim World coverage package to be released. According to [ ] OMB is insisting that the [ ] for DR automation be held up until [ ] RMS, has had an opportunity to review the plans. [ ] talked to [ ] O/Comptroller, about this impasse yesterday, arguing that questions about one part of a diverse program should not be allowed to delay implementation of the other, noncontroversial parts. [ ] called back later with the information that Keith Hall, OMB, has agreed to release [ ] for our immediate use, holding back only the [ ] for DR automation for further study.
